COMMENTS:

This bill would require state and local public agencies to provide voter registration information prepared by the Secretary of State to specified persons. This bill would require each agency to make voter registration cards available in a conspicuous location where the public regularly conducts business with the agency. Additionally, this bill would allow each agency to include voter registration information, including voter registration cards, with any authorized publication or mass mailing.

The Board has been in compliance with the requirements of this bill since January 1995 (reference: State Board of Equalization Operations Memo, Number 1022, January 3, 1995, subject: Implementation of National Voter Registration Act (Motor Voter Bill)). In executive Order W-98-94, the Governor designated "State Board of Equalization district offices which provide services to the public" as voter registration agencies.
